- Astigmatism – cannot see far away or close up
- Amblyopia – “lazy eye”
- Anisometropia – one eye sees clearly and one is blurred
- Anisocoria – pupils are unequal
- Misalignment – eye turning in or out

Date: November 12, 2024

Time: 9am to 11am

Place: ILS- East Building

****This event is only for JPS- PK students****

“It takes this technology to help parents figure out that their children need help,” said Kristina. “I cannot say thank you enough to Saving Sight and KidSight for the impact the screening has had on my son. He would have missed out on years of not being able to see things properly.”

Healthy vision is essential to your child's success in school!
